

Ride Rules

THE RULES

Cruzin' For Kidz should be a fun event. For that to happen, everyone should be mindful of each other. We have a variety of folks with different skill levels and comfort zones, so please, be courteous, safe, and tolerant. This makes the rules pretty simple: Obey the law and be courteous to others.

THE REQUESTS

As with anything, a little planning and preparation goes a long way. The following are some suggestions for a worry free ride:

Come prepared. Check your oil, tire pressure, and chain tension before the ride. Top off your gas tank and do your preventative maintenance well before the start of the ride.

Ride in formation, two up, preferably staggered. Bikes with passengers should be to the right. Maintain about two bike lengths between vehicles in perfect conditions. You may need more space in the rain. Try to accelerate at the same pace as the leader. Share the road with other vehicles. If you are passed, allow space for the passer to re-enter.

Be thoughtful and objective about your skill level and riding style. If you have lots of experience, confidence and a fast bike, take a position towards the front. Inexperienced riders on any bike should be in the middle and those with a more relaxed riding style should be near the back.

Finally the disclaimer: This is a charity ride. You are responsible for yourself, your bike and your passenger (if any). In reading this section you agree to hold Cruzin' For Kidz, Williston Elementary School, Levy County School Board, their administrators and staff, and the organizers and volunteers of this ride harmless from any injuries or damages incurred before, during or after the ride.

Welcome to Cruzin' For Kidz.

We hope you enjoy the event as much as we do!
